\* Statements regarding the proper use of financial forecasts and other special remarks

- Forward-looking statements that include forecasts of business results are based on the information currently available and certain assumptions judged to be rational. Actual business results may differ substantially because of various factors. For the matters to be noted when using the financial forecasts and the assumptions behind these forecasts, please see “(3) Explanation of consolidated earnings forecasts and other forward-looking information” under “1. Qualitative information on the results for the current quarter” on page 4 of the attached materials.

## 1. Qualitative information on the results for the current quarter

### (1) Overview of business results

Despite a rebound in consumer spending in Japan's economy during the consolidated first quarter, concerns about the impact of global trade friction have resulted in ongoing uncertainties about the future direction of the world economy.

Overall IT-related market demand was robust throughout the period. Factors included the accelerating use of cloud services via smartphones, tablets, and other mobile devices; expanding business applications for the internet of things (IoT), artificial intelligence (AI), and other technologies; and the use of robotic process automation (RPA) to achieve the type of work-style reforms promoted by the Japanese government.

The e-book market continued to grow as smartphone-based reading has become more popular, broadening the e-book user base.

In this operating environment, the Infocom Group's medium-term management plan (April 2016 to March 2020) emphasized two fundamental policies: pursue growth and continue strengthening the management foundation to support growth. To this end, we have identified e-comics and healthcare as priority businesses. In these areas, we proactively pursued M&A and sought to develop businesses leveraging AI and IoT.

As a result, during the six months ended September 30, 2019, the Infocom Group generated net sales of ¥27,679 million, up 19.7% year on year. Operating profit rose 48.8%, to ¥3,863 million; ordinary profit grew 48.1%, to ¥3,876 million; and net income attributable to owners of parent increased 37.2%, to ¥2,575 million.

The Group's sales and profit tend to be relatively low in the first and third quarters of the fiscal year, but be concentrated on the fourth quarter. This trend stems from the concentration of deliveries of products and services for companies and hospitals in March, at fiscal year-end.

### (i) Business Solution Group

During the consolidated second quarter, our Business Solution Group recorded sales of ¥11,632 million (+12.9% year on year), and operating profit amounted to ¥1,321 million (+227.6%), driven by steady performance in IT services for hospitals and companies.

Our Health IT subsegment reported growth in sales of employment management systems, which support efforts to comply with work-style reform and are effective in managing complicated work schedules in hospitals. In addition, we unveiled a dashboard function for our surgery department systems at a recent trade show. This extended function provides information during disasters. In the community-based comprehensive care field, we made Staffplus (career change support service) a consolidated subsidiary to improve the matching accuracy of our *Carestyle* career change support service for care workers.

In corporate IT services, we improved our *MyQuick* document management system, providing links to electronic contract services, adding compatibility with AI-based automated input, and otherwise making the system more efficient.

In addition, we launched a new service that combines our integrated business management software package *GRANDIT* with cloud frameworks\*.

\*Cloud framework: IT infrastructure service utilizing virtualization technology (*Microsoft Azure*, *Amazon Web Services*, etc.)

### (ii) Digital Entertainment Group

Segment sales were ¥16,047 million (+25.1% year on year), and operating profit amounted to ¥2,536 million(+15.9%), supported by strong performance in our e-comics distribution business.

As one measure to boost advertising for this service, we expanded the broadcast period for TV commercials and served as lead sponsor for the *Yakult Swallows* (professional baseball) *Meccha Comics Day*. We also implemented a second edition of the *Meccha Bookstore*, featuring popular *Meccha Comics* products for sale at physical bookstores. To grow our user base, we launched a mobile app version of *Meccha Comics* to target a younger user segment.

As part of our overseas expansion, we made Korean e-comic distributor Peanutoon a consolidated subsidiary. Further, we announced a new company formed through a joint investment between Amutus Corp. and Papyrus Co., Ltd. to conduct business overseas.

## (2) Explanation of financial condition

### (i) Consolidated financial condition

Total assets amounted to ¥43,864 million, an increase of ¥214 million compared to the end of the prior consolidated fiscal year. This increase was mainly due to increases in cash and deposits and goodwill, which more than offset decreases in notes and accounts receivable. Total liabilities fell ¥1,337 million, to ¥9,604 million due to declines in provision for bonuses and income taxes payable. Net assets were up ¥1,552 million, compared with the end of the previous consolidated fiscal year, to ¥34,260 million.

Because of the above, the equity ratio rose to 77.2% from 74.6% at the end of the previous consolidated fiscal year.

### (ii) Consolidated cash flow

Cash and cash equivalents as of September 30, 2019, amounted to ¥20,519 million, up ¥342 million from the end of the previous consolidated fiscal year.

#### [Cash flows from operating activities]

Net cash provided by operating activities amounted to ¥3,001 million (¥2,018 million in the same quarter of the previous fiscal year). Principal sources of cash were profit before income taxes of ¥3,806 million (¥2,726 million) and a decrease in notes and accounts receivable of ¥1,199 million (¥1,809 million). The reason for this decline was a ¥401 million decrease in provision (¥322 million) and income taxes paid of ¥1,790 million (¥1,687 million).

#### [Cash flow from investing activities]

Net cash used in investing activities amounted to ¥1,660 million (compared to ¥686 million in the same quarter of the previous fiscal year). This result was mainly due to outlays of ¥1,092 million stemming from the acquisition of subsidiary stock in connection with a change in the scope of consolidation (no such outlays in the year-ago period), as well as ¥338 million in outlays intangible fixed assets (¥314 million in the year-ago period).

#### [Cash flows from financing activities]

Net cash used in financing activities amounted to ¥964 million (¥796 million in the same quarter of previous fiscal year), mainly due to cash dividends paid of ¥929 million (¥765 million).

## (3) Explanation of consolidated earnings forecasts and other forward-looking information

Given our performance for the consolidated second quarter and recent performance trends, we have made an upward revision to the consolidated fiscal year earnings forecast announced originally on April 25, 2019. For more information, see “Notice on Revision to Earnings Forecasts” (Japanese version only), published on October 30, 2019.

Please note that the above forecasts are based on information available as of the publication date of this material, so actual results may differ from forecasts due to various factors in the future.
